SUMMARY

React Developer with 2+ years of experience in building intuitive and visually appealing interfaces. Skilled in utilizing ReactJS, NextJS, and Redux to create user-friendly web applications. Proficient in handling live feeds and websockets to deliver real-time data to users. Familiarity with the video game space and an understanding of gamers' behavior and preferences. Seeking to contribute my expertise to HustleFish and drive innovation in the gaming ecosystem.

EXPERIENCE

Frontend Developer

06/2022 - 07/2023

CMD CNTR

Chicago, IL

Collaborated with a web design agency, utilizing React.js to build dynamic and visually stunning web applications.

- Developed and maintained responsive web applications using ReactJS, NextJS, and Redux, resulting in improved user experience and increased engagement.
- Implemented live feed functionality using websockets to deliver real-time data to users, ensuring up-to-date information and enhancing the interactive experience.

Frontend Developer

02/2021 - 03/2022

Charity4Life

Chicago, IL

As a frontend dev, I focused on enhancing the "Charity4Life" website using WordPress and JavaScript. I created responsive interfaces that communicated the mission of the charity.

- Developed and maintained the organization's WordPress site, enhancing the overall online presence.
- Assisted in troubleshooting and resolving HTML/CSS, JavaScript issues, improving website functionality.
- Collaborated with the team to design engaging web assets using Adobe Creative Suite.

STRENGTHS

Detail Oriented & Organized

Highly organized with an attention to detail, my ability to spot even the smallest inconsistencies helps ensure the quality of the final product.

Teamwork & Communication

Adept at working in Agile teams and utilizing Scrum to achieve project goals. Proficient in Jira for project management, along with communication channels such as Slack, Zoom, and email to share collective expertise.

Problem-Solving Skills

Ability to analyze complex issues, think critically, and develop solutions, ensuring for smooth development and troubleshooting technical challenges.

Time Management & Adaptability

Capacity to prioritize tasks, meet deadlines, manage workloads, and adapt to changing project requirements. Timely completion of development projects while delivering high-quality results.
